

INSPECTION

Inspection of Approved Slash Pile Burning White River Forest

The Ontario **Ministry of Natural Resources and Forestry (MNRF)** invites you to inspect the MNRF-approved prescribed burn plan for slash pile burning that will be carried out in the **White River Forest** (see map).

As part of our ongoing efforts to regenerate and protect Ontario's forests, some recently harvested areas have been selected to be burned under the strict guidelines of the MNRF *Prescribed Burn Planning Manual*. The prescribed burn will reduce the area covered in slash piles while increasing the area available for regeneration and reducing the fire hazard. The burn is scheduled for ignition between **October 23, 2017** and **November 6, 2017**.

Information about this prescribed burn project, including specific locations and maps is available for public viewing at the offices of Jackfish River Management Ltd. during normal business hours and the MNRF public website at ontario.ca/forestplans beginning **April 1, 2017**. The ServiceOntario Centre in Toronto and the MNRF Wawa District Office provide Internet access. For more information or to discuss the prescribed burn project, please contact:
