Review of Long-Term Management Direction Nipissing Forest 2019-2029 Forest Management Plan

The Ontario **Ministry of Natural Resources and Forestry (MNRF)**, **Nipissing Forest Resource Management Inc.** and the **Nipissing Local Citizens' Committee (LCC)** invite you to review and comment on the proposed long-term management direction for the 2019 – 2029 Forest Management Plan (FMP) for the **Nipissing Forest**.

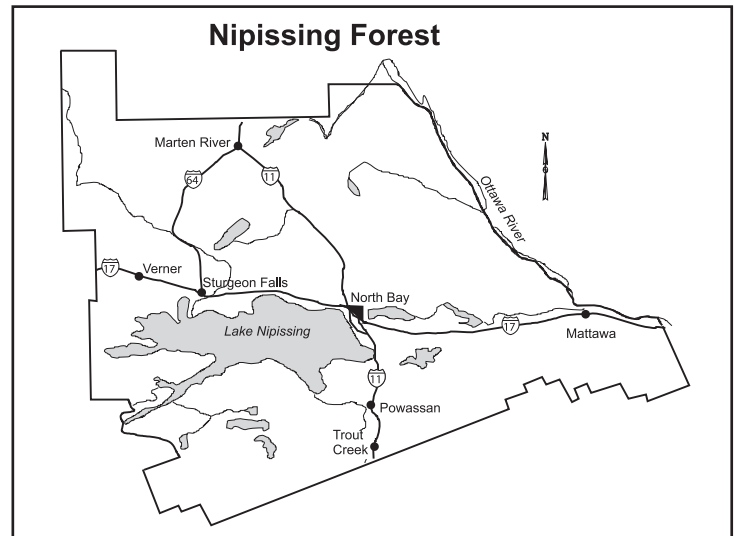

The Planning Process

The FMP takes approximately three years to complete. During this time, five formal opportunities for public consultation and First Nation and Métis community involvement and consultation are provided. The first opportunity (Stage One) for this FMP occurred on December 14, 2016 when the public was invited to "Participate" in the development of the plan. This **'Stage Two'** notice is:

- To invite you to review and comment on:
 - the proposed long-term management direction for the forest;
 - the areas which could reasonably be harvested, and the preferred areas for harvest operations, during the 10-year period of the plan;
 - the analysis of alternative one kilometer wide corridors for each new primary road which is required for the next 20 years.
- To request your contribution to background information to be used in planning.

How to Get Involved

To facilitate your review, a summary of the proposed long-term management direction for the forest can be obtained on the Ontario government website (www.ontario.ca/forestplans). A summary map(s) of the preferred and optional harvest areas for the 10-year period of the plan and alternative corridors for each new primary road which is required for the next 20 years, will also be available.

In addition to the most current versions of the information and maps which were available at Stage One of public consultation, the following information and maps will be available:

- Summary of public comments and submissions received to date and any responses to those comments and submissions;
- A summary report of the results of the desired forest and benefits meeting;
- Environmental analysis, including use management strategies of the alternative corridors for each new primary road;
- Maps that portray past and approved areas of harvest operations for the current forest management plan and the previous 10 years;
- Criteria used for the identification of areas that could reasonably be harvested during the 10-year period of the plan;
- The rationale for the preferred areas for harvest;
- Summary report of the activities of the local citizen's committee to date.

The above information is available at the Company and MNRF office identified below during normal office hours for a period of 30 days from January 24, 2018 to February 23, 2018.

Comments on the proposed long-term management direction for the Nipissing Forest must be received by Guylaine Thauvette, R.P.F. of the planning team at the MNRF North Bay District Office by **February 23, 2018**.

Meetings with representatives of the planning team and the LCC can be requested at any time during the planning process. Reasonable opportunities to meet planning team members during non-business hours will be provided upon request. If you require more information or wish to discuss your interests and concerns with a planning team member, please contact one of the individuals listed below:
